only limited by your imagination.

Directions

From the M62 - Junction 24

- Follow the signs for Halifax A629.
- Continue down the Ainleys (steep dual carriageway) for approximately 1 mile.
- Follow the slip road signposted Elland and Lowfields Business Park.
- At the figure of eight roundabout take the 3rd exit.
- Go under the viaduct bridge.
- At the next roundabout take the 3rd exit onto Lowfields Way.
- Our building is 4th on the right (cream building with green railings).

sokit^{d3} & pokit^{d3}

Specification and colours are correct at time of going to print. We reserve the right to alter specifications or colours without notice. Colour representation is as close as printing process allows. Some of the organisations we work with whose retail solutions are featured in this brochure are Mothercare, Blacks, JD Sports and Ocean.

opening your mind to the possibilities

sokit® and pokit panels are the latest in a series of product innovations designed by, and exclusively available from, Design and Display.

The panels have been designed with a series of 16 holes (sokits) or 40 slots (pokits). Integrated into the sokit® panels are beautifully finished silver, black, white and clear plastic or aluminium sokits®.

Both sokits and pokits can be fitted with a wide range of thoughtfully designed accessories and fittings made from brushed aluminium, glass and plastic. Displays and features benefit from a clean uncluttered look that gives a 'cutting edge' feel to any modern retail environment.

These thoughtful aesthetic touches can be even further enhanced because the base panels can be made in a choice of mdf, painted, melamine or brushed aluminium laminate finishes.

They can also be adapted with other features such as extra holes or dichroic lighting to increase their visual impact.

Made with designers in mind, sokit® and pokit panels offer almost limitless creative solutions for hanging, railing and shelving your goods to show them to their best advantage.

sokit® and pokit - flexible design, affordable prices, available now.

design innovation

Our display systems demonstrate commitment to product design development and craftsmanship.

Working with leading retailers, designers and specifiers, our experienced creative team utilises the latest online CAD/CAM technology and virtual 3D imaging to develop and apply dynamic solutions that meet the demands of a constantly evolving retail landscape.

This, together with our responsiveness, manufacturing quality and extensive experience in providing bespoke solutions combine to position our business at the forefront of innovative retail equipment manufacturing.

display solutions 

delivered beyond expectation 

Capability and commitment.

Design and Display operate a 24 hour production cycle from a purpose built, 100,000 square foot facility. This houses one of the largest CNC machines currently in use in the UK. This is complemented by state of the art routing, beam saw cutting, edging, postforming, laminating and robotic paint spraying capabilities.

This ongoing investment is supported by a work force dedicated to working to the absolute highest standards of precision and craftsmanship.

Design and Display's reputation is created by the clients who work with us.

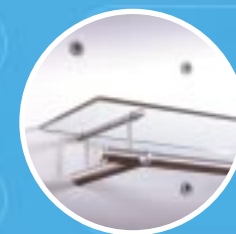

These relationships grow and prosper with our commitment to providing exceptional levels of service, defined by dedicated project management, friendly, down to earth lines of communication, trust and an open proactive culture.

Talk to us about your specific requirements or for more information about our products and services.

SSHR11	RAIL 1100mm LONG (3 ARMS)	60.30 each

NEW PROJECTION 290mm

Size of standard panels

The size of our standard board is 2400 x 1200 we can trim the boards to any size you should require for a small additional charge.

Design & Display panel specials

For the range of standard melamine finishes available please refer to our display box. We would be delighted to quote for any special finish you require.

Paint Effects

Our painting facilities include robotic paint spraying to achieve a BS or RAL colour. We can also do numerous special paint effects.

Wood Veneers

We can supply you veneers as requested. Please note that our veneers are a natural material with variations in both colour and grain pattern. If you require an identical colour and grain pattern we would suggest a wood grain melamine board.

Laminates

We bond our laminates boards in house which enables us to provide a fast and efficient lead time together with a competitive price.
